

New Decals 'n Docs sets Reprinted Airframe Stencil Data sets and A new book

+

10th Anniversary sale offer 5% to 20% off!

New Arrivals, now shipping...

The **Dallachy Strike Wing Beaufighters** mega set featuring 16 aircraft from 144, 455 (RAAF), & 489 (RNZAF) Squadrons in 1/72 and 1/48 scales, and the **Outriders: 333 (Norwegian) Sq** **Mosquitoes** sets in 1/72, 1/48, and 1/32 have finally arrived and are now shipping.

All direct customer back-orders / pre-orders have been shipped* and all dealer orders have been either picked or shipped.

Click the links below to order, or just to view set images and more detailed descriptions.

As usual, the **Docs publication for each new release** is also available separately as a download-delivered high resolution PDF file. Some neat features in this particular set of Docs include the **Delivered Mk.II installation (ARI 5083)** in Mosquito FB.VI's, some interesting **Coastal Command ordnance loads for FB.VI's** that were not rocket armed, **exclusive Beaufighter torpedo armament details**, and more.

Links to order just the Docs files direct are also provided below.

Our newest book, commissioned by and published in association with the **CFB Borden Military Museum**, is also now available in our e-shop. All of our other books are finally up in the e-shop again as well (links below).

On the subject of publishing, readers may also be interested in **Terry's 13 page article** on the **late-production Beaufighter TF.X's** published in the **July 2016** edition of **Airfix Model World**. A concise history, photos, profiles, scale drawings, and period technical illustrations to help you sort out all of those late-production Beau detail nuances.

A 10th Anniversary Offer... **

It is hard to believe that this summer marks the 10th anniversary of SkyGrid Studio's in-house book and decal publishing imprint, Aviaeology. How time flies! To mark the occasion the following **discounts** are in immediate effect from now through the next 10 days (**ends at midnight, 22 July 2016**) on in-stock items:

* **5% discount** on and all **single-Item Decals 'n Docs** (full sets, generic codes and serials sets and airframe stencil data sets not included) orders and single-item **Aviaeology book** orders.

* **10% discount** on all **multiple-Item Decals 'n Docs** (full sets, generic codes and serials sets and airframe stencil data sets not included) orders for **2 to 4** sets.

* **15% discount** on and all multiple orders combining at least **2 Aviaeology books**, or **1 book** and at least **2 Decals 'n Docs** set.

* **15% discount** on all multiple orders combining at least **5 Decals 'n Docs** sets.

* **An additional 5% discount** (up to a total of 20% in consideration of the above) will be applied to any and all orders from **existing customers** who maintained their **November Releases Programme pre-orders** with us through the extended delays we had experienced along the way. The patience exhibited by all 384 of you leaves us humbled and grateful. Thank you!

* *With a Canada Post labour dispute related service disruption looming and the continuation of mail service uncertain, we were forced to courier the final five dozen or so non-domestic pre-orders packages to our associates in the USA, Linden Hill Imports, who were kind enough to send them on. Some customers may experience another week or so delay in the arrival of their packages because of this. With the threat of a disruption lifted for now, we have resumed shipping orders destined for Canadian addresses, and ongoing non-domestic orders.*

** *The final Anniversary Offer Discount amount will be applied to the order when it is ready to ship. This amount will be refunded, together with any shipping overcharge (SOP with our combined-shipment eBay Shop orders), once your order is packed and ready to go.*

Available for Immediate Shipment
