The MI-35M is the latest upgrade of the famous and successful MI-24V Hind. The MI-35M is equipped with a new electronic system for night operations. This version is in service with the Russian Air Force and has been exported to several countries. Compared to the MI-24, the new MI-35 has shortened stub wings with 4 weapon points, an improved rotor system with upgraded turboshaft engines.

Kit consists of 373 parts
Model length: 44,7 cm
Decals for 3 Russian helicopters

Partially new tooling
